Click on the link above to listen to our story this week.

English

Our story this week is: The Robot and the bluebird by David Lucas. We will be continuing to follow our school English scheme 'Power of Reading'. I will upload the planning to our class page. Upload your completed activities to our class dojo page.

Here are some additional activities you might want to do:

- This is a story about a Robot who has a broken heart at the start. Can you write sentences about what makes you unhappy using conjunctions like and, because, but to join your sentences?
- Can you make your own robot? What would you call your robot? What would your robot do? What did you use to build your robot?

- In the story the robot finds happiness. Can you draw me a picture or take a photo of something that makes you happy? Write down why it makes you happy.
- Robots are used to do lots of different jobs. If I could I would make a robot to do all my housework. Can you make a poster telling me all about what amazing things your robot can do?
- Robot makes a nest for the bluebird to help it. Can you think about how we can help birds? You could follow these instructions to make a bird cake:
<https://www.rspb.org.uk/fun-and-learning-for-kids/games-and-activities/activities/make-a-speedy-bird-cake/>
- Being outside makes me happy and seeing lots of different types of wildlife. Jacob and I have enjoyed spotting lots of different types of birds.

Mathematics

Our focus the week is fact families

- We will be continuing to follow our school Maths scheme 'White Rose Maths'. You can find daily videos and activities for to do here: White Rose home learning Year 1 Summer Week 3
<https://whiterosemaths.com/homelearning/year-1/> Upload your completed activities to our class dojo.

Here are some additional activities you might want to do:

- Play number bonds to 10 match game. Write numbers 0 - 10 (you need an extra 5) on to pieces of paper. Place them face down on the floor and take turns to turn over 2 cards. If they are number bonds to 10 you can keep them but if they aren't you need to place them back down. The winner is the one with the most cards. You could do this with number bonds to 20.
- How quickly can you recall number bonds to 10/20? Can you recall them all in less than 2 minutes? 1 minute?
- Create your own fact family houses like these using your subtraction and addition skills:

- If I know $3+7=10$ then I also know: $7+3=10$ $10-7=3$ $10-3=7$ Can you do the same for:
 - $2+8=10$
 - $9+1=10$
 - $6+4=10$
- Can you create your own bar models using these numbers: 8, 2, 10? 18, 20, 2?

Can you see what different birds you can spot on your next walk?

- Can you be the teacher? Write down lots of addition and subtraction questions and make sure some have the correct answers and some have the wrong answers. Ask someone in your house to sort them into true and false then you can check to see if they got them right.

- ✓ Can you practise your RWI sounds? You can watch daily RWI lessons at: https://www.youtube.com/channel/UCo7fbLqY2oA_cFCIq9GdxtQ/videos?disable_polymer=1 These would be the same daily phonics lessons that children would take part in at school.
- ✓ Please continue to read every day.
- ✓ Practise your cursive handwriting using the support sheet.
Learn how to spell and read Year 1 common exception words.

- Join in doing cosmic yoga. I know lots of you enjoy doing this at school and it helps us to focus our minds. Here is the link: <https://www.youtube.com/user/CosmicKidsYoga>
- Decorate a jar or a cardboard box. Write down things that make you happy and put them inside the box. When you are feeling sad you can pick a note out of your special box to make you smile. You could also do one for things you are looking forward to when lockdown is over. I am looking forward to seeing all of you.
- Watch Ruby's Worry <https://www.youtube.com/watch?v=VCyihI2SJU> Its important to talk about your worries and to think about what you can do to make your worries go away.
- Exercise is really important for our mental health and to make us feel good. Why don't you try learning a new exercise/ sport? I have been trying to learn how to hula hoop.
- Mindfulness colouring in- I will post these on as a pdf to our class page.

This week`s Whole School Home Challenge

Can you show us what you have done over the last few weeks to make you happy? This could be something you have made, a song or dance that you have perfected, just anything that has made you smile.

You can choose the way in which you do this. It can be a painting, a model, an ICT presentation....anything you like. If you have brothers or sisters from Primary School at home, you can work with them. We look forward to seeing what you create!

We are really enjoying seeing what you have been doing. We know you are working very hard at home to support your children and we very much appreciate it. Thank you very much.

You can upload your child`s work through our Class Dojo. It has been lovely to see all of the amazing work that you having been doing .If you need to chat to us about anything please get in touch through Class Dojo.

Please continue to take care, stay safe and keep smiling. Miss Mundy
