

BELLINGHAM

PARTNERSHIP OF SCHOOLS

Health and Safety Policy

2026-27

Approved by:	Governing Body	Date:	September 2026
Last review date:	September 2025	Next review date:	September 2027
Policy applies to:	Bellingham Primary School	YES	Bellingham Middle School YES

SECTION A

General Statement of Policy

The health, safety and welfare of everyone who attends our school are of fundamental importance. In partnership with Northumberland County Council, the Governing Body recognises its responsibility to provide a safe and healthy environment for staff, students, contractors and visitors to the premises and will take all reasonably practicable steps to fulfil this responsibility. Such matters include:

- A safe place of work and a safe working environment
- Safe plant and equipment
- Safe systems of work
- Safe access to and egress from places of work
- The assessment of all significant risks associated with work processes, and the adoption of appropriate precautions
- The provision of adequate information, instruction, training and supervision
- Adequate consultation with staff on all matters relating to health and safety, and the fostering of a positive safety culture in the school
- Keeping abreast of legislation by obtaining advice from NCC and through persons competent in health and safety matters
- A written system of safety management which includes:
 - The identification of needs and objectives, in order of priority
 - The allocation of appropriate funds
 - The integration of health and safety planning within the Partnership Development Plan
 - The regular monitoring of progress and safety performance, to be used in the planning process
 - An annual review of the safety policy
 - The inclusion of health and safety on the agenda of Governing Body meetings, at least annually
 - The inclusion of health and safety as a standing agenda item at regular staff meetings.

The Executive Headteacher and school leadership team have delegated responsibility for the day to day running of the school, including managing health and safety risks.

The Health and Safety at Work Act 1974 requires an employer to publish a Health and Safety Policy setting out the employers' statement of intent, management organisation and detailed arrangement with regard to health and safety and bring it to the attention of their staff.

In view of this, this Health and Safety Policy has been devised to provide details of the specific arrangements in place to manage health and safety risks within our school. To supplement this, the Northumberland County Council Health and Safety Manual, along with several other supporting policy documents, is also used and referenced.

Although much work has been undertaken to produce this policy, the maintenance of a detailed policy will require a continuing commitment from staff and an annual review is carried out. Further contributions or suggestions from members of staff are most welcome.

SECTION B

Safety Organisation

Key roles within our schools are identified below:

Role	Person undertaking role
Chair of Governors	Anthony Kirkbride
Vice Chair	Steve Shore
Governor with safety responsibilities	Steve Shore
Executive Headteacher	Steve Gibson
Deputy Headteacher	Amy Mundy
School Safety Coordinator	Steve Gibson
Coordinator - COSHH	Oliver Pusey
Coordinator - Manual Handling	Steve Gibson
Coordinator - Fire and Emergency	Darren Lowrey
Coordinator - First Aid	Bernie Thompson
Medication Coordinator	Bernie Thompson
Allergy Lead	Amy Mundy
Caretaker	Darren Lowrey
Kitchen Manager	Bernie Thompson
Educational Visits Coordinator (EVC)	Bernie Thompson
Designated Safeguarding Leads	Steve Gibson Amy Mundy Tabitha Fletcher
Membership of the Safety Management Team	Steve Gibson Amy Mundy Bernie Thompson Darren Lowrey
Health and Safety Advice	NCC Corporate Health and Safety Team
Occupational Health Service	NCC

Roles and Responsibilities

Further, more detailed, information regarding roles and responsibilities can be found in Section D of the HSM.

Bellingham Partnership Governors

The Chair of the Governing Body takes steps to discharge their responsibilities for health and safety performance in school. Details of the responsibilities of governing bodies is given in Section E1 of HSM. However, some of the principle responsibilities include:

- Ensure that Headteachers have made adequate arrangements to discharge their responsibilities for health and safety within the school as outlined below.
- Take an active role in the development of the health and safety policy for the school that reflects local procedures and policies.
- In conjunction with the Headteacher, provide a monitoring role for the school for health and safety performance. Any inspection reports should contain the following:
 - Action allocated to individuals who are responsible for the function
 - Time limits set for action
 - Remedial action to deal with the problems identified
 - Identification of any long term action required in order to address underlying causes of problems.
- Ensuring that health and safety issues are covered at meetings of governing bodies, either through a special meeting or a standard agenda item. This should include discussion of any safety reports or information issued to the Headteacher by NCC or enforcing authorities such as the HSE or the Fire Safety Officer.
- To provide information to NCC on Health and Safety matters when requested.
- To ensure adequate resources are given to safety issues.
- To review performance periodically
- To ensure that safety training is given priority for both governors and staff.
- To ensure that the protocols detailed in Section E3 are followed where the school is commissioning services outside of NCC.

The Executive Headteacher

The Executive Headteacher is responsible for the effective day-to-day management of school activities, including the safety of staff and students. Assistance in this task is provided through the delegation of specific duties to those staff who comprise the school leadership team.

The Executive Headteacher, assisted by those directed to lead specific activities of the school, will:

- Ensure that health and safety is an integral part of the management of the school, setting objectives as part of a planned approach to full legislative compliance; producing and updating a school health and safety policy document which details arrangements with respect to implementing local policies and procedures in school.
- Ensuring that all full and part time employees under their control carry out their work so as to avoid, so far as is reasonably practicable, risk to the health or safety of pupils, employees, or any member of the general public.

- Ensuring that all staff are aware of any documentation and follow any instructions or procedures issued in relation to health and safety.
- Where appropriate, nominating staff to be responsible for specific aspects of health and safety, and ensuring that all staff are aware of such delegations.
- Ensuring that only appropriately qualified and experienced members of staff supervise potentially hazardous activities.
- Ensuring that there are adequate arrangements for the supervision of pupils at all appropriate times.
- Ensuring that adequate arrangements exist for the reporting of accidents, violent incidents and serious near misses and potential hazards, and that such reports are forwarded to the County Council and relevant statutory authorities (HSE).
- Ensuring that adequate arrangements exist for emergency evacuations and that all staff and pupils are aware of such arrangements.
- Ensuring that fire safety advice forwarded by NCC is adhered to, and that all reasonable precautions are taken by staff to minimise the risk of fire. Fire Risk Assessments should also be completed.
- Procedures are in place to ensure that statutory maintenance and testing of equipment is undertaken by a competent contractor.
- Carrying out procedures to ensure that only competent contractors are brought onto school sites to carry out works.
- Making adequate arrangements for the site induction of any contractor brought onto the site so that the activities do not interfere or cause a risk to the safety of staff and children on site.
- Immediately informing NCC of any unsafe practice or condition arising from the work of a contractor on the site, which may endanger the health or safety of staff, pupils or members of the general public.
- Ensuring that all staff are fully aware of any asbestos material in the school and make arrangements to ensure that no person brought onto site is exposed to risks from asbestos. Any asbestos that is disturbed should be reported to the Asbestos Manager in the Property Services Section and staff and pupils removed from its vicinity.
- Ensuring that arrangements are in place for staff to report defects and unsafe conditions and that appropriate action is taken to remedy concerns.
- To consult with school safety representatives on all matters that arise relating to the health, safety or welfare of staff under their control and take appropriate action in response to reports received.
- Ensuring that members of staff receive adequate health and safety information, instruction and training with respect to their work activities. To ensure that induction and any training identified as part of the risk assessment process are included.
- Ensuring that risk assessments have been completed and are regularly reviewed for all activities on site as required by health and safety legislation.
- Maintaining appropriate safety records in accordance with policy.
- Ensuring that all purchases have been assessed for suitability and compliance with the Provision and Use of Work Equipment Regulations 1998.
- Making suitable arrangements to ensure that all plant and equipment is maintained in safe and serviceable condition.
- Maintaining the routes for communication of health and safety issues, including distribution of notes of meetings and updates of policies.
- Ensuring adequate liaison with the Corporate Health and Safety Team and the Occupational Health Team as required.
- Ensuring that health and safety standards and compliance with procedures are adequately monitored.

- Reviewing the health and safety performance of the school on a regular basis in conjunction with the school governing body. Ensuring the Safety Performance Audit for Schools is completed at least annually.
- Implementing a system for safeguarding all persons either on the premises, or involved in school activities, from risks which are reasonably foreseeable.
- Implementing such procedures as are necessary to comply with all health and safety legislation, in accordance with NCC guidance.
- Provide regular reports on significant issues and general progress to the Governing Body.
- Foster the growth of a positive safety culture, in which all the staff share the aim of continuous improvement in health and safety.

Subject Leaders

The Health and Safety at Work Act requires all who lead to accept responsibility for the safety of processes under their direct control. In order to achieve this objective, those involved in Subject Leadership within our schools are responsible to the Executive Headteacher so far as is reasonably practicable for:

- Ensuring that all members of staff in a subject area are aware of any safety precautions to be taken when undertaking potentially hazardous activities.
- Maintaining a permanent file of safety publications and guidance issued by the Local Authority or any other relevant bodies or professional associations relevant to the subject, such as CLEAPSS, DATA, AfPE etc. They will ensure that all information is freely accessible to all relevant staff, and that all subsequent additions are brought to the attention of such staff, and added to the file, as appropriate.
- Identifying appropriate training needs, including refresher training, for staff within the subject area, and liaising with members of SLT to ensure that this is added to the school's Professional Learning Programme.
- Ensuring that the curriculum of the subject includes instructions in the correct and safe methods of carrying out potentially hazardous activities.
- Ensuring that the curriculum of the subject does not involve staff and pupils in procedures likely to cause accidents.
- Ensuring that all equipment and machinery is maintained in safe and serviceable condition, and defective equipment is not used until the necessary repairs have been carried out.
- Ensuring that competent members of staff carry out (and review) risk assessments for all the activities within their control. These assessments should cover general risks as well as the specific risks involved with the teaching and supervision of children. Consideration should be given to the use of hazardous substances, provision of personal protective equipment and selection of work equipment.
- Ensuring that any best practice guidance available in relation to activities undertaken is adhered to, eg CLEAPSS, AfPE, DATA. They will make appropriate arrangements for the periodic monitoring of safety standards, arrangements and progress towards identified objectives. Where relevant and appropriate to the subject, CLEAPSS advisory service audits will be utilised. They will report the results to the Headteacher for incorporation into the regular review of safety matters and inclusion, where appropriate, in the Partnership Development Plan and/or budget planning.
- Reporting all potential hazards to health or safety and all accidents to the Headteacher.
- Identify clear short and long term priorities of the subject with regard to health and safety, and provide this information to the Headteacher so that it may be included in the normal budget planning arrangements.
- Assist in the fostering of a positive safety culture within their subject area.

Kitchen Manager

Kitchen Managers are directly responsible to the Headteacher of the safe organisation and work of the school kitchen, for reporting accidents and near misses, defects to the building or kitchen equipment and any other relevant matter to the Headteacher.

Caretaker

Responsibilities for caretaking and cleaning are made in line with Section E3 of the HSM.

The Caretaker is responsible to the Headteacher for the safe organisation and work of the service, and for fulfilling all those functions listed under “Subject Leaders” with respect to caretaking and cleaning staff.

These staff are responsible for reporting accidents, defects to the building or their equipment, and any other relevant matters to the Headteacher.

All staff

All staff have a duty to take reasonable care of themselves and other persons who may be affected by their acts or omissions at work. Individuals also have a duty to cooperate with managers in order that the employer can fulfil statutory duties. The Health and Safety at Work Act also makes reckless interference with, or misuse of anything provided in the interest of health, safety or welfare, an offence.

Health and safety legislation requires all staff to use all materials, equipment and facilities in accordance with the information, instruction and training which they have received. Furthermore, staff must observe site safety rules and all instructions on health and safety issued by the Headteacher, Subject Leader or any other person delegated to be responsible for a relevant aspect of safety. Individuals must also assist Officers of the County Council and Inspectors of the Health and Safety Executive in their inspections and investigations

Staff must report immediately to their line manager any:

- Serious and immediate danger to health and safety, including any defects relating to facilities or equipment.
- Matter which they, taking into account their instruction and training, would reasonably consider represents a shortcoming in the protective arrangements for health and safety.
- Accident, near miss, violent incident or hazard, ensuring that an appropriate report form is completed.

Pupils

Pupils, in accordance with their age and aptitude, are expected to:

- Exercise personal responsibility for the health and safety of themselves and others.
- Observe standards of dress consistent with safety and/or hygiene
- Observe all the health and safety rules of the school and in particular the instructions of staff in an emergency situation.
- Not wilfully misuse, neglect or interfere with things provided for their health and safety.

SECTION C

Arrangements

The Management of Health and Safety

The Management of Health and Safety at Work Regulations require that a thorough and modern system of safety management is adopted. This policy is based on the Health and Safety Executive (HSE) model “Managing for Health and Safety” contained in their document HSG-65 (2013) based on the principle of “plan, do, check, act”.

The general arrangements are detailed in the Statement of Policy. Detailed arrangements and responsibilities can be found in Section E1 of the HSM and applied as appropriate.

Meetings of the Safety Management Team

Purpose of meetings:

- To direct and coordinate the necessary planning for health and safety, and to draft the school’s safety policy.
- To review, prioritise and direct safety initiatives rising from:
 - Plans submitted by subject coordinators
 - Reports concerning safety inspections, accident, near miss and violent incident reports and other means of monitoring performance
 - New information or guidance received from NCC, enforcing authorities or consultants
- To audit all parts of the safety management system on an ongoing basis. Ensuring periodic site inspections take place and are recorded. The Safety Performance Audit for schools is completed on at least an annual basis and the findings reported to Governing Body meetings.

Frequency of meetings:

These meetings will take once per term, unless required due to unforeseen circumstances.

General arrangements

The arrangements set out in Sections E to L of the HSM remain in effect. The purpose of this section is to amplify those arrangements with the inclusion of specific details.

Accidents, Near Misses, Violent Incidents

Accident Procedure

- In the event of an accident any member of staff is expected to ensure the scene is made safe and give comfort and aid to the injured person. A message must be sent to the school office as an urgent action - radios should be used where available. An assessment of the injury should be made by the first aider at the earliest opportunity.
- Should an ambulance be required it is usually summoned from the main office. If it is clear that the seriousness of the injury requires immediate medical attention, any member of staff should summon the ambulance by calling 999. In this case, again, a message should be sent to the main office as soon as possible to allow plans to be made to meet the ambulance.
- In the event of serious injury or ill health to a student, the parent (or emergency contact) should be contacted immediately using the contact numbers held in the main office. A request to collect their child

to take home or to hospital should be made, as appropriate. Medical treatment or advice should not be delayed if parents or emergency contacts are not available.

- In circumstances where a student needs to be taken to hospital immediately by ambulance and a parent is not available to accompany them, a member of the school staff should go to the hospital to await the arrival of the parent. On occasion, it may be necessary to take an injured student to hospital in a vehicle belonging to a member of staff. Before this occurs, staff should ensure that their insurance covers this eventuality. Staff should be aware that hospital personnel will stabilise the casualty's condition until the parents arrive and give consent to further treatment.
- Students should only be sent home when a responsible person is present to take care of them. This would normally be a parent/guardian, second emergency contact or close relative.

Violent Incidents

The schools follow the guidance in section F2 of the H&S manual in respect of arrangements in place to manage the risk of violence. Violent incidents are investigated in the same way as accidents and near misses.

Where an incident involves a pupil, appropriate action is taken as needed. This may include the development of an individual risk assessment which considers the risk from violence and appropriate control measures. Other actions may include seeking support from various professionals, a review of a behavioural support plan, consequences for the pupil, reviewing staff training needs and provision of wellbeing support to staff.

The overall risk from violence is considered in a school policy/risk assessment, which records the general arrangements in place to mitigate the risk.

Record Keeping

In the case of insignificant or minor injuries to pupils the school records details of the injury and treatment rendered in the school's own accident book. In order to comply with the requirements of the Data Protection Act only one record per page should be completed. Each record should be detached on completion and kept in the school office. It is important that treatment rendered by the first aider is recorded.

The Safety Coordinator or Headteacher/senior member of staff and Safety Management Team monitors records to identify accident trends.

Record retention

ANVIL records involving staff/adults are retained centrally by NCC Health and Safety Team for 5 years from the date of the incident. Those involving children and young people (where they are the person assaulted) are kept until they reach the age of 18 plus 3 years (21 years of age). Where the age is unknown or not provided, records are retained for 21 years from the date of the incident.

After these dates, records held on ANVIL are anonymised but retained for statistical reasons.

The schools consider the above retention periods in respect of any documents they hold relating to an accident or violent incident (including risk assessments, witness statements etc) and refer to the government guidance on record retention: Data protection in schools - Data retention - Guidance - GOV.UK (www.gov.uk).

Accident Investigation

The Safety Coordinator should advise staff on the appropriate level of response.

A senior member of staff will undertake an investigation using form ACC2, take witness statements and photographs of the scene, if the incident is serious, complex or one which may have serious repercussions.

In the most serious cases the school will contact a Health and Safety Advisor. If appropriate, they will undertake a full accident investigation and take photographs and witness statements.

Reportable Injuries

The Health and Safety Executive (HSE) will be notified by the Headteacher of an incident immediately in the following circumstances:

- Death or 'specified injuries' in respect of employees
- Death of a pupil
- 'dangerous occurrences'
- 'occupational diseases'
- 'injuries to students or non-employees, arising out of or in connection with work activities, where the injured person is taken directly to hospital from the scene of the incident and receives treatment.

School specific guidance provided by the HSE is considered when deciding if an incident is reportable to the HSE. Further advice is sought from the Health and Safety Team, where required, prior to reporting.

In the case of injuries to employees resulting in an over-seven days' absence from work, these are reported to the HSE within 15 working days. This should be done using the information about the incident recorded on the ANVIL e-form.

All notifiable incidents can be reported to the HSE via their on-line reporting system.

First Aid Arrangements

First aid arrangements in school are recorded below:

- A member of staff, Bernie Thompson, has been nominated to act as first aid coordinator. They, with support from the Safety Coordinator have completed a first aid needs analysis to determine the number of first aiders needed and the level of training required. This is completed in line with guidance from the HSE. The coordinator is responsible for ordering items and replenishing first aid boxes and ensuring that certificates remain current.
- First aid boxes are located in the main office, the staff room, the science prep room, near to the gym and Design & Technology classroom.
- A medical room is available; supervision of this facility is considered. In more serious cases the child should be transferred to the care of parents as soon as possible

Health Matters

Policy on Supporting Pupils with Medical Conditions

- The Governing Body has a legal duty to ensure the school has a suitable policy in place which is reviewed. The means of identifying students' medical needs should be established:
 - By writing letters to parents
 - On intake forms which require parents to identify medical needs
- Staff only administer prescribed medication with the agreement of the Headteacher and only when a parental consent form has been completed. The medication is only administered during school hours where this is unavoidable.
 - Arrangements have been made for the storage of medication in school in a secure cabinet, in the main Reception office. The exception to this is emergency medication, such as asthma inhalers or auto injector pens, which are not locked away.
 - Medication is suitably labelled with details of name and dosage.
- Health Care Plans are kept in a folder in the main Reception office, which are updated annually. Medical input to the individual health care plans is sought where appropriate.
- Staff training takes place in relation to recognising and dealing with key medical conditions, including anaphylaxis, asthma, diabetes and epilepsy.
- Administration of non-prescribed Paracetamol tablets (500 mg) is kept to a minimum, though it is permissible in certain circumstances, such as period pains and migraine. The following will still be required:
 - Parental consent
 - Record of issue
 - Details of any allergies

Infection Prevention and Control

The school is committed to safeguarding the health of pupils, staff and visitors by introducing measures that help reduce the spread of infection amongst the school community, thereby helping protect the wider community. The following arrangements are in place:

- The risk of infection is considered in activity-based risk assessments, ranging from carrying out personal care activities to forest school activities.
- A risk assessment covering respiratory infection (including COVID-19).
- Staff and parents/pupils are reminded to stay away from school if they are unwell, in particular if they have a high temperature, fever or sickness/ diarrhoea. Staff and pupils should stay off work until they have symptom free for 48 hours following diarrhoea/sickness
- Posters are displayed reminding site users of the infection control precautions in place.
- Separate wash hand basins with liquid soap, warm water and paper towels/hand dryers are provided throughout the school to allow regular hand washing.
- Hand sanitiser is available at strategic points throughout the school Hand sanitiser is not recommended for gastrointestinal illness, Soap and water should be used in this scenario
- A documented cleaning regime is in place. Cleaning of frequently touched points, such as door handles is prioritised.
- Staff receive general awareness training in respect of infection prevention and control procedures and also in respect of the specific arrangements in place at the school.

The schools follow the UK Health Security Agency (UKHSA) guidance on Health protection in children and young people settings, including education which includes advice in relation to managing specific infectious diseases,

including any required exclusion periods for pupils or staff. It also provides advice to take in the event of an outbreak and where necessary the school will contact the UKHSA North East Health Protection Team on 0300 303 8596 for advice when an outbreak is suspected. Communications to parents regarding outbreaks will be considered under the direction of the HPT, who will advise on the content. The Northumberland County Council Infection Control Policy is referred to which provides further information on general infection control procedures and documents the Local Authority arrangements for the Proper Officer role (who receives reports of notifiable diseases – this role is currently carried out by the UKHSA Health Protection Team Director).

Contingency planning in respect of significant public health incidents is included in the school's Emergency Plan.

Staff Health (including stress management)

The schools take the health and wellbeing of staff seriously, and a number of policies are in place that support the health and wellbeing of staff. These include, but are not limited to:

- Smokefree Workplace Policy (HR Policy)

The Health Act 2006 imposed a ban on smoking in enclosed places, including workplaces. Smoking is not permitted in County Council workplaces, their immediate grounds and in vehicles. This ban applies equally to employees, visitors, elected members and contractors.

- Psychological Wellbeing At Work Policy -(HR Policy)

This policy outlines the commitment to promote wellbeing and prevent the factors which are known to cause stress in our workforce. It describes the process for managing the risks associated with workplace stress and other psychological difficulties that employees may experience at work. It also gives guidance on how to prevent and manage stress as well as outlining the support services that are available for those experiencing mental health problems including the effects of stress at work.

- Policy on Supporting Pupils with Medical Conditions (H&S Policy)

This policy is specific to schools and contains information regarding medication issues. It is based on national guidance and was written to enable governing bodies to be able to comply with a new statutory duty imposed on them under section 100 of the Children and Families Act 2014 and to implement the DfE's exacting guidance on this legislation.

- Alcohol and Substance Misuse Policy (HR Policy)

In relation to alcohol and drugs, the Council has focused on:

- ensuring the health, safety and wellbeing of employees and the public
- provision of support for employees with alcohol and/or drug problems
- the prevention of alcohol and drug problems at work
- protecting the reputation of the Council and schools.

Building, Site Maintenance and Commissioning Services

- Site safety inspections are carried out on a regular basis and findings documented.

- The Headteacher is in charge of the maintenance of the school site and its buildings. All staff have a responsibility to notify the Caretaker of any defects they find via email or the staff room defects whiteboard. The Caretaker is responsible for arranging repairs, either directly via a contractor or by reporting defects to NCC Property Services Help Desk. The Property Help Desk can be reached by telephoning 01670 624843 or by using their on-line portal. The need for emergency repairs should be notified in the same manner. This will enable Property Services to prioritise and assign workloads accordingly and will allow requests for work to be traceable.
- The School has developed a contractors induction pack and an HSC1 form is completed to record the essential exchange of H&S information between the school, as client under the CDM Regulations, and the contractor in relation to works to be undertaken. A copy of the asbestos survey for the site is kept in the school reception area and shown to all contractors. The Caretaker is responsible for liaison with Property Services staff (where appropriate) and contractors in order to coordinate any necessary safety precautions during the progress of any building/site maintenance. This may entail completion of the HSC1 form, when required. The school's consistent application of HSC1 and N1 processes is essential in ensuring that our asbestos in-situ is not disturbed.
- Where the school commissions services independently of Property Services, we will ensure that the protocols detailed in section E3 are implemented. In particular, construction or invasive maintenance work will not commence unless an N1 form has been completed by the school and approved by Property Services. Additionally, the headteacher is fully aware of ongoing Duty Holder responsibilities to ensure arrangements are adequate and any essential remedial actions highlighted are dealt with appropriately.

Maintenance and Testing of Equipment

With regard to the above, appropriate arrangements are in place to ensure that:

- internal school procedures are established and followed
- liaison with the County Council and contractors takes place
- full records relating to statutory testing are maintained. These will include:
 - Annual safety tests of 240v portable electrical appliances (L4 of HSM)
 - 5 yearly fixed wiring inspection (L4 of HSM)
 - Fire safety checks (Section 5 of the Fire Log Book)
 - Water hygiene test (H8 of HSM)
 - RCD testing will also be carried out and the results recorded.

The school will ensure that the specification for any alternative statutory inspection and testing services is comparable to services provided by Property Services. The school will cooperate and provide evidence of this to NCC Property Services on request.

Fire Safety and Emergencies (Fire Log Book)

- The Headteacher is the responsible person in respect of the duties under the Regulatory Reform Fire Safety Order (RRO), supported by the Fire and Emergency Coordinator / Caretaker. The Headteacher is responsible for arranging for the fire risk assessment in section 4 of the Fire Log Book to be completed for each building. This is reviewed when needed, and at least annually.
- The Fire and Emergency Coordinator (nominated by the Headteacher) is responsible for devising and coordinating fire drills and ensuring record keeping in the Fire Log Book is kept up to date, such as fire

drills and fire alarm tests. Any actions identified during fire checks are prioritised for immediate resolution.

- Fire drills take place each term, including one at the start of each academic year. Staff are trained in the emergency evacuation arrangements in place, with refresher training taking place every six months. Specified staff receive more in depth training in fire safety e.g fire warden training.
- The following arrangements for fire precautions are in place to ensure that:
 - An N1 form is completed prior to any construction activities or invasive works taking place.
 - The contractor induction pack and use of the HSC1 form is used to control contractor activities to ensure fire safety arrangements are not compromised. Where necessary, a contractor may need to carry out a separate risk assessment in respect of maintaining safe escape routes.
 - The compartmentation of the building is not compromised by these activities. Any invasive works which compromises the fire wall/break is made good by the contractor and checks take place to ensure this happens.
 - Fire doors are maintained in good condition and never wedged open. Under no circumstances are fire doors removed.
 - Flammable liquids are stored in a flam chest or locked metal cupboard
 - Waste materials are collected daily and are stored in a locked area until collection by the Council.
 - Electrical equipment not in use is always isolated from the mains.
 - Issues arising out of inspections undertaken by the NCC Fire Safety Officer are actioned quickly.

The school has an Emergency Plan in place which includes arrangements for issues such as outbreaks of infectious diseases, lockdown protocols, adverse weather conditions etc. This is updated and reviewed periodically and also following any incidents to ensure lessons learnt are incorporated.

Safeguarding, Security and Traffic Management

A separate safeguarding and security pack has been completed detailing specific school arrangements to afford authorised access only and allow movement between different parts of buildings at specific times.

- Vehicular drop-off for pupils has been limited to the upper car park and roadside.
- Vehicular access to the front section of the school has been limited to before 8am and after 4pm. Deliveries by arrangement.
- The gate to the outdoor pupil area is locked by the caretaker after morning drop-off and unlocked pre-pick-up. Pupil entrance doors are locked after use.
- All internal doors giving access to pupil areas are controlled by coded locks.
- A secure sign-in system is in place, managing and recording staff and visitors on site. This is also used for safe evacuation purposes.
- All individuals who have unrestricted access to pupils are subject to DBS arrangements and details are maintained in the school central register.

Such measures enable the school to be secure and safeguard staff and pupils against the risks of unauthorised entry to specific areas and buildings.

Risk Assessment (Section E6 of HSM)

A written assessment of all activities that involve a significant risk to health or safety has been produced, in which the hazards, risks and necessary precautions are identified. Once completed, a periodic review of risk assessments will be undertaken to check they remain valid. A review may also be needed following an accident or when the activity changes. An index of all risk assessments is being developed for easy retrieval and review. Where relevant, national guidance and policy has been adopted, adapted and implemented. Where appropriate, the precautions detailed in the risk assessment have been transcribed into relevant working documents, such as lesson plans or worksheets.

Manufacturers' safety data sheets are obtained for all hazardous products used in school (except where 'haz-cards' are provided by CLEAPSS for Science chemicals).

Manual Handling (Section L1 of HSM)

A written assessment of all manual handling tasks likely to involve risk of injury is consulted.. Wherever reasonably practicable, procedures and practices are changed to eliminate or otherwise reduce manual handling tasks. Manual handling training is provided to staff where appropriate.

Display Screen Equipment (Section L2 of HSM)

Staff who are using computer workstations regularly and for a significant part of their working day (defined as 'computer users') are provided with a suitable workstation which is ergonomically designed to minimise the stresses and strains of this type of work. In practice this requires the provision of adjustable furniture to provide optimum support and comfort for the user and a clear screen display which is set up to avoid unwanted reflections. All defined 'computer users' should complete a self-assessment of their workstation which is then passed to a trained workstation assessor to be verified. All workstations are assessed periodically and new workstations must be assessed before being put into use.

Machinery and Work Equipment (Section G1 of HSM)

All new machinery and work equipment is selected through assessment to ensure that it is appropriate for the intended purpose. All such equipment must be maintained in safe working order, usually by a specialist contract via an SLA or other such contract.

Educational Visits

Schools and staff retain the responsibility to ensure that pupils are safe in school and when undertaking out of school activities. The risk management to keep them safe should be proportionate to the nature of the activities. Staff should be able to take pupils on exciting school trips that broaden their horizons. The school policy for educational visits sets out the roles, responsibilities, and the arrangements to achieve the above. This is underpinned by the Employer Policy, the NCC Health and Safety code of Practice for Offsite Educational Visits, Outdoor Learning and Adventurous Activities and National Guidance provided by the Outdoor Education Advisers Panel.

Visit Leaders, Educational Visit Coordinators and Head Teachers/Senior Managers are to work within the parameters of the above policy guidance. Further competent advice, guidance and training is obtained from the Employer via the Corporate Health and Safety team. All school visits are planned by a competent Visit Leader. The details relating to the planning process are entered into the County Council's Evolve system. These details are then

checked by the appointed School's Educational Visits Coordinator (EVC) who has undertaken the County Council's recognised training course. The EVC must ensure that suitable and sufficient risk assessments are in place and a complete Evolve submission has been made for Category 0, Category 1 and Category 2 visits. Additionally, the EVC should ensure that members of staff are aware of, and have access to the County Council's Code of Practice for Off-Site Educational Visits. Where necessary, advice is to be sought from the County Council's Health and Safety Adviser (Educational Visits). All Category 0 and 1 visits must be approved by the Headteacher. In the case of Category 2 visits, following approval by the Headteacher, the school's submission is assessed by the Health and Safety Advisor (Educational Visits) before final approval is made for the visit to go ahead. Category 0, Category 1 and Category 2 visits must not proceed unless these approvals have been provided.

The school has a policy on Off-Site Educational visits, a copy of which has been uploaded onto Evolve.

Outdoor Play Equipment and PE Equipment

(Section G5 of HSM, model play risk assessment on H&S portal)

A risk assessment covering play activities and use of play equipment is in place and shared with staff. The school play equipment is checked regularly by school staff and inspected at least annually by a competent contractor. Written records of these inspections are maintained. Any actions identified in the annual Play Equipment Inspection report are initiated immediately. Where necessary, equipment is taken out of use temporarily until repairs are completed.

An independent commissioning inspection should be undertaken prior to any new equipment being brought into use. Likewise, similar arrangements are in place for the inspection and maintenance of PE/Gym equipment. A contract is in place with a qualified contractor to undertake a formal inspection of this equipment.

Information and Training (Section E2 of HSM)

Staff are provided with appropriate information and training to enable them to undertake and supervise school activities in a safe manner and to comply with best practice or statutory training requirements. Examples of such activities include first aid, fire safety, food handling and preparation, working at height, the safe use of substances, machines and other items of work equipment.

Training requirements for staff are identified via a training needs analysis which is carried out annually by the leadership team. This also considers any specialist safety training requirements, such as those for staff in Design and Technology and Science. Training needs are prioritised in an annual training plan and costed to allow appropriate allocation of the school's training budget.

Personal Protective Equipment (PPE) (Section L7 of HSM)

Where PPE is identified as a control measure in a risk assessment the equipment selected must be appropriate for the task. This ensures that it will provide adequate protection and is compatible with other equipment in use. The cost of all PPE is covered by the school. Advice on the selection of PPE is consulted on with the Corporate Health and Safety Team or via CLEAPPS in respect of science and D&T activities.

All PPE must be maintained in good working order, and any defect reported immediately to the appropriate line manager for repair or replacement. A suitable storage area/locker is provided.

Respiratory protective equipment (RPE) is maintained in good working order, kept hygienically clean, stored in clean condition, and inspected at monthly intervals (3 monthly where use is infrequent) by the appropriate subject leader. A written record will be kept for inspection. Alternatively, disposable RPE is used, provided that this is suitable for purpose and worn in line with the manufacturer's instructions.

Subject Areas

Each subject area within the school may have health and safety arrangements that are unique. Where appropriate, subject coordinators may submit a summary of key issues and procedures for inclusion in the School Safety Policy. Topics may include:

- How safety is planned and managed within the subject area
- Where safety information is filed
- Special safety rules and training requirements
- Responsibilities of certain individuals with regard to safety tasks or functions
- Liaison with regard to safety tests and inspections
- Maintenance of plant and equipment
- Provision of protective equipment

Those subject areas which involve a higher degree of risk, such as D&T and Science, require their own health and safety policy. In certain cases, CLEAPSS provides standardised documentation which is adapted by the school.
